

# TRU-CLOSE Gate Hinges

## Patented Tension Adjustment

- \* Remove endcap
- \* Depress and turn internal adjustor as required

Made from special glass-fiber reinforced polymer materials. Stainless steel springs and bolts. Quick and easy tension adjustment. No welding required.

1/4" Hinge Gap  
Wt. .1 lbs

**170/A/3**

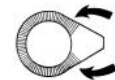

Sold and priced by the each

## Weld-On Teardrop Hinge With Brass Washer and Fixed Pin

The two-piece weld on hinge is extremely popular due to its high weight load capacity as well as its professional appearance. It can be painted to match the door and frame, and is ideal for gates, steel doors, screen doors, and trailers. It can be welded on as lift-off or it can be permanently mounted. These weld-on hinges can also be galvanized for extra protection against the elements.

Part #	Pin Dia	L	D	S	Rating
